ADDITIONAL INFORMATION

CATAGLAZE®+ SILVER TITANIUM PROVIDES 99.99% ANTIBACTERIAL PROTECTION, ON ALL PRODUCTS AT NO ADDITIONAL CHARGE!

This new ceramic glaze ensures to use less detergent and less water, and therefore it reduces the risk of releasing potential pollutions into the environment.

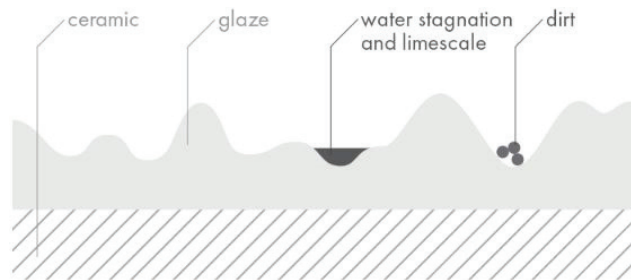

The minimum roughness value makes the surface extremely shiny - perfectly reflecting the light - and smooth, avoiding any opacity due to limescale residues.

Regular cleaning, thanks to the characteristics of this extraordinary ceramic glaze, is more effective and faster. Reduced maintenance effort.

CATALANO'S GLAZE

COMPETITOR'S GLAZE

ULTRA QUIET. ULTRA EFFICIENT. ULTRA CLEAN

Newflush® system, designed by Catalano, optimises the WC flushing performance thanks to its powerful vortex system. This technology significantly noise, water consumption and with its dynamic cleaning action there is a reduction in the use of detergents. By removing the rim - where bacteria, limescale and grime build up - the inside of the pan becomes a continuous surface for easier and deeper cleaning. Newflush® improves both the users comfort and the environmental sustainability of Catalano toilets.

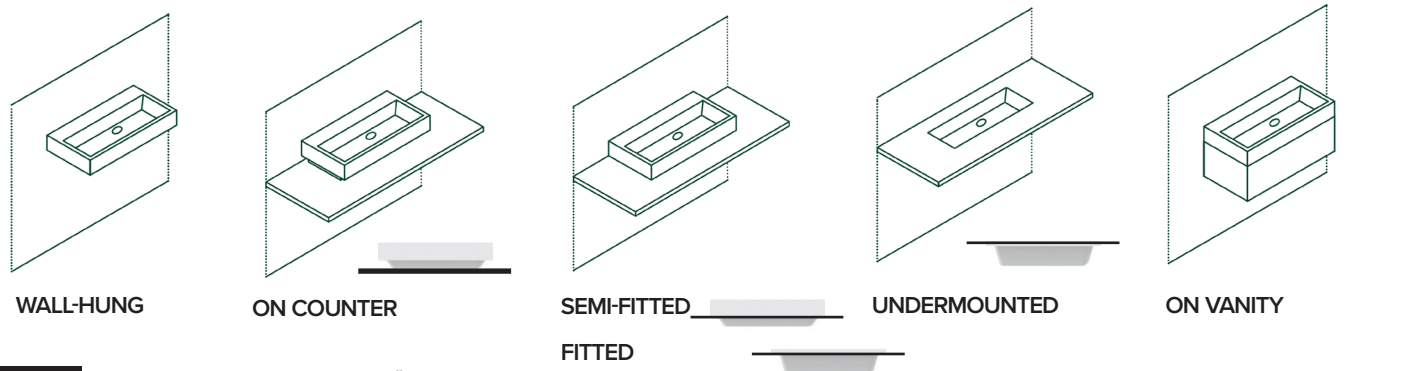

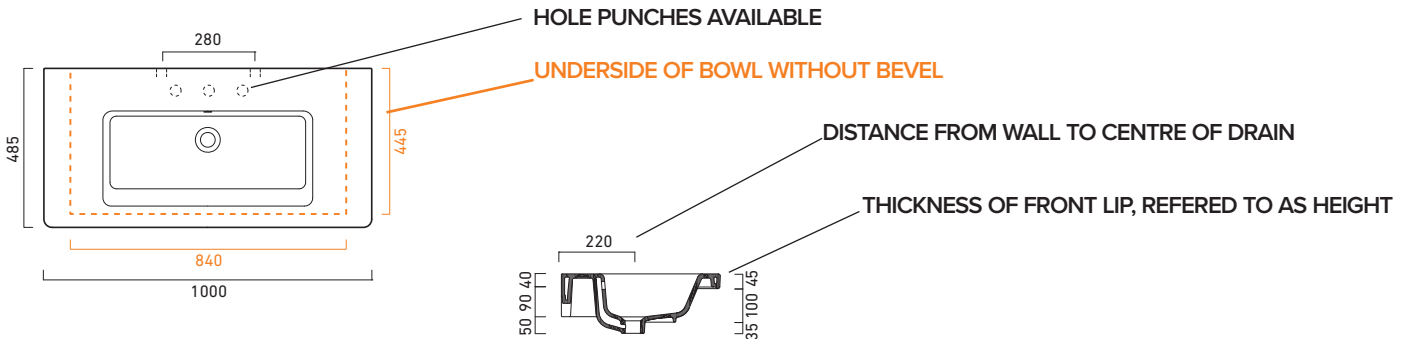

NO RIM AT THE TOP OF THE BOWL

VORTEX FLUSHING

SPECS & INSTALLATION OPTIONS

CUSTOMIZE A VANITY FOR ALMOST ANY SINK

**FOUND A SINK YOU LIKE, BUT CAN'T FIND A VANITY FOR IT?
NO PROBLEM!**

Which style do you like? Which sink do you want to use? Which type of handles?

Do you want extra storage? Which colour and material would you like?

**Choose your favorite elements to customize the design of your choice,
or select a vanity made for Catalano basins in our Aria price book!**

CUSTOMIZATION OPTIONS

The below models are available for a variety of sinks, as indicated in the following pages. For any other specific quotes, and to receive a spec drawing of your chosen design with a specific vanity, please email orders@streamlinecanada.ca

WARRANTY

COPYRIGHT

The Catalano products are distributed and available for purchase exclusively through the Catalano network of authorized distributors and resellers.

Catalano shall contact the competent authorities against anyone who illegitimately credits itself as a Catalano distributor, uses its logo, but also only in case Catalano found a non-authorized link to its website: <http://www.catalano.it>

The images of the Catalano products, both on the web (digital format) and on printed communication, are the intellectual property of Catalano and are protected by a trademark and marked with a special watermark. Any use of such images, for any purpose, is subject to Catalano's prior written authorization.

BAR CODE

All the Catalano products come with a bar code that allows to identify the characteristics of each processing step (casting, testing, spraying, firing and selection stages). This technologically advanced system gives an overview on all the phases of the production cycle, allowing to achieve a high-level of production and a quality of materials that wouldn't be otherwise achievable.

WEIGHT AND SIZES

Weight and sizes of ceramic items can be submitted to a little variations and so these measures are approximate; the technical drawing with dimensions, written in our catalogues and leaflets, can have small differences due to the tolerance that ceramic items can have.

WARRANTY

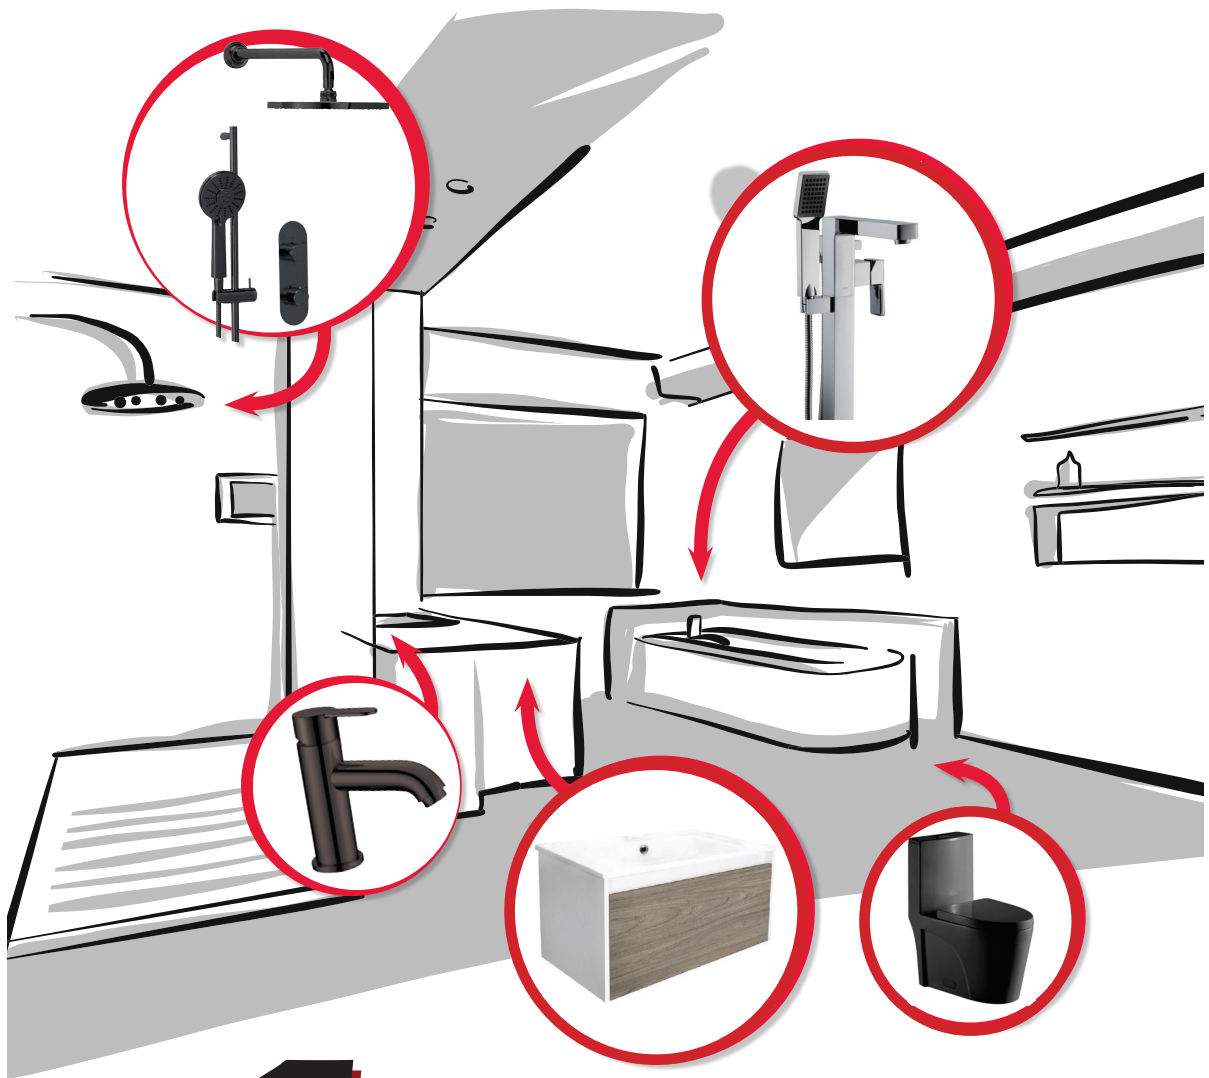

Ceramica Catalano warrants the quality of the items and is committed to replace the defective items within two years from the day of the receipt of materials; any kind of imperfection has to be declared right away before installation. The Catalano warranty consists of the replacing of the goods, without incidental expenses due to the installation. Each defective item has to be kept in order to be examined by Catalano, in order to decide about the replacing of claimed items or the discount on the price.

In order to continue to improve its products, Catalano reserves the right to alter without any prior warning the technical, formal and functional features.
